

# REVOLUTIONIZE RECYCLING WITH GIVO TECHNOLOGY PLATFORM (GTP)

[www.givo.africa](http://www.givo.africa)   [info@givo.africa](mailto:info@givo.africa)

# Overview

The GTP is an operating system for recyclers. It makes use of a suite of advanced technologies to track material flow, emissions, and compliance, enabling transparency and finance for the waste management value chain.

# Problem Statement

## **Lack of Data:**

+14M MT annually of Ocean plastic due to low levels of transparency & traceability.

## **Regulatory Guidelines:**

Evolving Compliance & regulatory requirements often results in a lack of adaptability.

## **Lack of Capital:**

Limited funding mechanisms & revenue streams industry wide.

# Key Features & Benefits

The GPT improves a holistic plastic supply chain with data integration and verification.

Operational Optimization

Data Analytics

Security & Data Privacy

# How The GTP Works

## 1. Register Depositor

Register a new depositor on the GIVO Technology Platform.

## 2. Sync Hardware

Connect the digital scale and printer to the Android device via Bluetooth.

## 3. Weigh Recyclables

Weigh recyclables with the connected digital scale on the Android device.

## 4. Print Receipt

A receipt will be printed via the bluetooth printer to confirm transaction.

## 5. Sync Data

Data collected will be uploaded automatically to the server.

# GIVO Technology Platform Numbers

Our numbers on the GTP demonstrate our success in waste management and sustainability. We have engaged multiple depositors in actively collecting plastic waste, significantly reducing our environmental impact. Here's a summary of our impact:

Total Users:  
**+1,400**

Transactions:  
**+2,000,000**

Plastics  
Collected:  
**+800k Tonnes**

Incentives  
Paid Out:  
**+\$40,000**

Total Carbon  
Saved:  
**+7.5m Kg**

Jobs Created:  
**31**

# Integration & Scalability

## INTEGRATION

**Collection:**  
KYC, aggregation,  
payments.

**Processing:**  
KYC, energy use,  
input & output

**Off-Taker:**  
KYC, payments,  
logistics, carbon calc.

## SCALABILITY

Partnerships  
for Impact

Technology  
Adoption

Education &  
Awareness

# Join Our Sustainable Journey Mission: Get Involved and Make a Difference!

## Become A Depositor

Be a depositor, embrace the GIVO technology platform for efficient waste management practices.

## Become A Partner

Collaboration is essential for meaningful impact. We invite like-minded organizations and individuals to join forces with us, harnessing our strengths for positive change.

## Raise Awareness

Join us in raising awareness about our technology and the importance of implementing it in all waste management operations.

## Security & Data Privacy

We are committed to your data security and privacy. We employ strong security measures, adhere to industry certifications, and continually enhance our infrastructure to ensure the highest level of protection for your information. Your data safety is our top priority.

Accounts Secured:  
**+1,400**

# BECOME A PARTNER WITH GIVO

Choose GIVO as your waste management partner and unlock the sustainable value that proper waste management can bring. Together, we can make a positive impact, reduce costs, and create a more sustainable future for all.
